Technical Sound Data Logger PCE-NDL 10

PCE-NDL 10 is a high-quality sound level meter with data logging capabilities. This noise dosimeter records sound pressure level (SPL) measurements as well as dosimetry (dose) measurements ir decibels (dB) and saves the measurement data to the internal memory or an SD card (SD carc included).

Note: To set up the SD card for the first time, the PCE-NDL 10 must be connected to AC power (AC power supply NET-LUT or NET-LUT-US sold separately - see accessories tab).

- Measures SPL and dose in dB
- Manual or adjustable automatic data logging
- Data hold, min / max, date / time, auto shutdown (on / off) and audible alarm (on / off) functionality
- Internal memory and SD card slot (SD card included)
- RS-232 and USB interface
- Backlit LCD screen
- Portable
